

Assumption-storm

Instructions: Before jumping into your design challenge, write down all of the assumptions you have about your chosen challenge. Follow the prompts below.

,	, , , , , , , , , , , , , , , , , , , ,
	ur challenge. Which of the challenges have you decided to work on throughout this urse?
	How Might We better evaluate and measure the output of employees, moving away from simply hours spent sitting at the office?
	How Might We help employees feel more connected to the mission of the
	organization, at all levels? How Might We increase collaboration across teams, in order to break down
	organizational silos? How Might We redesign our space to best support the type of work employees are doing and the environment they need to thrive in that work?
	How Might We redesign the meeting experience, to make meetings feel like the most productive time of the workday? I'm going to write my own challenge:
wi	nat will you hear? When you interview your users, what do you think they will think needs
	ange (or doesn't) in your chosen challenge space?
